

A rave review of our PC-5000 power conditioner by the “Stereo i Kolorowo” magazine.

ALL IN ALL, THE PC-5000 IS A MUST-HAVE DEVICE!

TAGA Harmony PC-5000 power conditioner has a blessed influence on the sound of a hi-fi system. It "purifies" the electric current, removing from it elements that may blur or thicken the sound, while not reducing the dynamics and energy of the message. As a result, the musical image becomes clearer, more selective and substantial. With more visible ingredients and tonal subtleties. All in all, the PC-5000 is a must-have device!
